FRONTEND WEB DEVELOPER

I am a dedicated front-end developer with over 1.5 years of specialized expertise in React.js. My technical skill set encompasses advanced proficiency in HTML5, CSS3, JavaScript, and TypeScript, along with a strong command of modern frameworks and development tools. I have a proven track record of implementing responsive, intuitive, and user-friendly designs that significantly enhance user experience. Recently, I have deepened my expertise in React.js, enabling me to efficiently create, manage, and optimize custom service applications.

TECHNICAL SKILLS

Language: HTML, CSS, JavaScript, Typescript, SASS(SCSS)

Framework: React.js, React Native

Libraries : Tailwind CSS, Redux JS Toolkit, Axios, Material UI

Tools: Visual Studio Code, Git, npm

PROFESSIONAL EXPERIENCE

Astria Digital Private Ltd,
React.js Developer

Aug 2024 - Present

Experienced in developing dynamic and interactive web applications using React frameworks. Proficient in managing application state and implementing efficient blockchain solutions to enhance security and functionality.

Accomplishments

- Successfully developed and optimized interactive web applications, enhancing user experience and performance.
- Implemented and managed application state effectively, ensuring consistent and efficient data handling across projects.
- Designed and deployed blockchain solutions, contributing to secure and transparent digital transactions.
- Improved code quality and application maintainability through rigorous testing and best practices in development.

Apyrn Labs Private Ltd,
Software Engineer

Mar 2023 - Mar 2024

Design and develop visually appealing, responsive, and user-friendly interfaces using HTML, CSS, and JavaScript frameworks like React.

Accomplishments

- Improved user interfaces and application performance, resulting in a more engaging and efficient user experience.
 - Implemented effective state management and data handling strategies, significantly boosting data accuracy and application responsiveness.
 - Identified and implemented optimizations that improved application performance and reduced load times, enhancing overall user satisfaction.
 - Delivered tailored solutions that addressed specific client needs, leading to increased client satisfaction and successful project outcomes.
-

PROJECTS

Inventory Management and Billing Application

Apyrn Labs Private Ltd
Coimbatore

React.js and Material UI

The application is an inventory management system and invoicing software that tracks every activity in an inventory-targeted place and generates billing for your services and products.

Accomplishments

- Successfully implemented new features it allows you to track all your inventory movements, so you always know how much stock of each item you have, where it's located, and when to reorder.
- It also allows you to initiate credit-based sales and purchases. It also offers a variety of reports to analyze the effectiveness of different sales operations within a company.
- Sales teams use these reports to identify patterns and insights to enhance the quality of their products and services.

HR Portal

Astria Digital Private Ltd
Bangalore

React.js and Typescript

The HR portal is designed to cater to four distinct user types: Interviewer, Non-Interviewer, Recruiter, and Admin. Each user type has specific access and functionalities tailored to their role.

Accomplishments

- **Interviewer** - Can view and manage their profile, similar to the Non-Interviewer role. This includes personal information, assigned tasks, and related activities.
 - **Non-Interviewer** - Has access to view and manage their profile, focusing on non-recruitment-related functionalities.
 - **Recruiter** - Can view detailed candidate information, including profiles, application status, and evaluation results. This role supports recruitment workflows by managing candidate-related data.
 - **Admin** - Has full access to the portal. Can view, edit, and manage all user profiles, candidate details, and system configurations. Oversees the entire HR portal and ensures smooth operations across user roles.
